YOUR GUIDE TO FLEXIBLE SPENDING ACCOUNTS

WHAT IS AN FSA??

Flexible Spending Accounts (FSAs) offer more than just healthcare savings—did you know there are two common types, each serving a unique purpose?

These pre-tax benefit plans help you lower your taxable income by setting aside pre-tax dollars for essential expenses. Whether it's healthcare or dependent care, FSAs provide a smart way to manage everyday costs while saving on taxes.

Healthcare FSA

allows reimbursement of qualifying out-of-pocket medical expenses.

Dependent Daycare FSA

allows reimbursement for eligible dependent care expenses.

With both types of FSAs, you'll receive access to a secure, easy-to-use web portal where you can track your account balance, view your claims history, and submit requests for reimbursements.

FSA ELIGIBILITY

Anyone whose employer offers an FSA can participate, including employees not covered under the employer's health plan. Your employer may exclude certain types of employees such as part-time, seasonal or temporary. Ask your employer benefits team to verify eligibility. Self-employed individuals cannot participate in an FSA.

A **Flexible Spending Account (FSA)** helps you increase your take-home pay and save on taxes by using pre-tax dollars for eligible out-of-pocket expenses. You can then access these funds easily with our HG Advantage Card.

With an FSA, you elect to have your annual contribution deducted from your paycheck each pay period in equal installments throughout the year, until you reach the yearly maximum you have specified. The amount of your pay that goes into an FSA will not count as taxable income, so you will have immediate tax savings. FSA dollars can be used during the plan year to pay for qualified expenses and services.
